Salmon River Line to Go to Operating Department.

OFFICIALS WILL INSPECT IT

Probable that a Special Train Will Carry a Party from Salt Lake Up to Mackay.

Nothing definite has as yet been arranged as to the time when the Salmon river branch of the Oregon Short Line will be turned over to the operating department, but the supposition is that Friday or Saturday will see the line go out of the jurisdiction of the construction department. It is also thought that when this change is made there will be a special train leave Salt Lake for Blackfoot and Mackay, carrying officials of the line and newspaper men to take a run over the road. The comple-tion of this branch has brought wonder-ful strides in development of the country contiguous, and the little town at the end of the extension is booming to as if under an enchantment. It is quite certain that Mackay will not long be the terminus of the road but that it will be made to penetrate the whole Salmon river country, which is now without proper transportation facilities, but is full of great resources.

#### RAPID MAIL TRIP. Made on American Route From Australia to England.

A consignment of mail, which left Sydney, Australia, October 15th, for London, England, by the American route, arrived in New York at 10:40 Satarday morning and was dispatched on the steamship Umbria, which left for London that afternoon. The mail ar-rived on the Ventura at San Francisco last Monday from Sydney and Auck-land. It will be the speediest mail de-livery ever accomplished in the world— more than half-way round the globe, by steam at sea and steam on land, and steam at sea again, in less than thirty days. The New York Central railroad delivered the mail, (which includes several bags) on board the Cunarder with-in five minutes of her sailing time Saturday morning, and the steamship will have the letters in the London postoffice on the morning of November 16th. It will beat the fiction of Phineas Fogg

The Ventura left Melbourne, Australia, on October 14th, bound for San Francisco by way of Sydney, Auckland and Honolulu. From Melbourne to San Francisco the distance is about 9,200 miles; from Sydney it is about 8,500 miles; from Honolulu 2,600 miles. The Ventura stopped at each of these ports. She arrived at Sydney late on the 15th, and her average speed was about 400 knots in twenty-four hours. From Sydney it took her three days to Auckland, and from Auckland to the Hawalian islands eleven days. Her passage from Honolulu

Golden Gate was exceptionally speedy, although it did not break the high record. The Ventura anchored in American waters on the morning of November 4th. The mail bags were brought ashore and placed on the reg-ular mail train of the Southern Pacific, and then run over the Union Pacific, the Burlington and the Lake Shore

and then to the New York Central.

The first feat of this sort was on September 7th. The run was made over the Central and the mail was put on board the Campania on that date and delivered in the London postoffice and made ready for distribution on the morning of September 14th. This run was not like that which was finished Saturday morning. A special train was Chicago to Toledo, and ripped over the rails at sixty miles an hour, overtaking the fast mail which had left two hours before. Today's mail delivery will be by regular transcontinental mail trains. The extreme distance from Melbourne to Imndoh by way of San Francisco and New York is 15,265 miles.

Nearly 11,000 miles of the new route

between England and its far-away colony are covered by American ships and railway trains.

The beating of the last record of thirty-one and a half days will prove that mail can be taken through New York more quickly than through the Suez canal, and much more quickly than by the all-water route.

#### CASE GOES BACK.

United States Supreme Court Hands Down Decision.

A decision was rendered by the United States supreme court today in the case of the Missouri, Kansas & Texas Railway company vs. the board of railroad and warehouse commissioners of Missouri. The case came to the supreme court on a writ of error from the supreme court of the state of Mis-souri and the decision of the lower souri and the decision of the lower court was reversed. The opinion was handed down by Juatice Brewer. The principal issue was on the question of the removal of the case to the federal courts. The case involves the legality of the charge made by the railroad company for transporting passengers and freight across its bridge over the Missouri river at Booneville, Mo. The viete law fives the rate for carrying state law fixes the rate for carrying passengers in Missouri at 3 cents per mile and it seems that the railroad cents for their transportation across the bridge, and that an extra charge was also made for freight crossing the bridge. The practice was attacked by the railroad commissioners and suit prought in the courts to enjoin the railroad company. In the supreme court of the state the law was sus-tained. Application was made to remove the case to the federal courts on the grounds that the company is a corporation of Kaneas. The motion to this effect was overruled by the state supreme court and it is this opinion that is now reversed. The case therefore goes back for further proceedings.

#### SWITCHMEN LOSING. Trainmen Stand by Railroad Com-

Members of the Order of Rallway Conductors and Brotherhood of Rail way Trainmen employed on the Denver & Rio Grande railroad, at a meeting in Denver Saturday afternoon, acting up-on the advice of W. G. Lee, first vice grand master of the trainmen's organization, voted unanimously to stand the ra'lload company in the strike de-clared by the Switchmen's Union of North America. Mr. Lee explained the situation resulting from the switch-men's strike, and read the agreement made in 1892 between the trainmen and the old Switchmen's Mutual Ald society

#### INQUIRY OPENED. Inter-State Commerce Commission is After Reasons.

C. A. Proutz of Vermont, and Joseph W. Fifer of Illinois, members of the Inter-state Commerce commission, opened an inquiry at the federal court room in Denver today on the charges of discrimination against Denver in

freight rates from the Pacific coast.

About a year ago the Inter-state Commerce commission decided that the railroads should not charge more for freight from the Pacific coast to Denver than from the coast to Missouri river points on any commodity except sugar. Notwithstanding this the railways, in their schedule of east-bound tariffs from the coast made the rate to Denver from 100 to 500 per cent higher on 130 articles than the rate to Omaha or Kansas City. The proceedings today are on an order issued by the commission against the Southern Pacific and Santa Fe companies to show cause why they have not put the equal rates inte

#### Can't Make Schedule Time.

Since time card No. 14 became effec-tive last Sunday train service on the Wyoming division of the Union Pacific, or at least on the Fifth and Sixth districts, shows no improvements over what has had to be endured during the ast few months, says the Laramie Boolserang. It seems entirely out of the question for No. 5, the only west bound day train with Denver connec-tions, to make schedule time however it may be marked, and it is now forty

minutes later than formerly. Enginemen say that on account of the long runs now required of the passenger engines on the Fifth and Sixth districts all of the big compound engines are in bad shape. What kind of time these trains will make when the snow comes s a problem no one likes to consider.

#### No Girl Waiters.

## Rheumatism

Is a rack on which you need not suffer long.

It depends on an acid condition of the blood, which affects the muscles and joints, causes inflammation and pain, and results from defective digestion and a torpid action of the liver, kidneys and skin.

Sciatica, lumbago and stiff neck are forms of it.

"Hood's Sarsaparilla has cured me of rheumatism. I was so I could not lift anything and my knees were so stiff I could hardly get up or down stairs. Since taking three bottles of Hood's Sarsaparilla I have never felt a symptom of rheumatism, and I gladly recommend Hood's for this disease," MRS. HATTIE TURNER, Bolivar, Mo.

"I have suffered greatly from rheumafism and did not get any relief. When nearly helpless I began taking Hood's Sarsaparills and two bottles have greatly improved my health. The block system will go into effect at the end of this week. Tests of the hauling capacity of engines 702 and 402 of the Rio Grande Western are to be made as soon as they can be taken off the regular freight service. If the traffic in this line of business continues at its present enormous proportions the test will be postponed for some time.

The Oregon Short Line will soon commence laying new steel at Milford, going north from that point to connect with the force near Oasis laying rails south. It will be a much needed improvement, and the patrons of the road will greatly appreciate it.

The wheat and flour situation is one of especial interest in view of the fact that the control of all the mills of this state and of southern Idaho may any lay pass into the hands of eastern capitalists. Some persons are of the opinon that the recent advance in was just a preliminary squeeze by the combination, to get people accustomed to higher prices. However, although Mr. Ambroise E. McKenzie, who secured options on over 75 per cent of all the mills in Utah and southern Idaho, is in the east effecting the organization of a company to take up the options, it s improbable that the deal has yet reached the point of consummation to such a degree that the policy of the Utah mills is being directed by East-erners. The price of wheat even in carload lots is from 63 to 65 cents per bushel and still higher prices are expected with correspondingly higher prices for flour. ## JUDGE MARSHALL HAS A BUSY DAY.

Demurrer of the Horn Silver Mining Company is Sustained.

WAS NOT PARTY TO ACTION.

List of Names Drawn of Grand and Petty Jurors-Irrigation Case Decree Entered.

Judge Marshall sustained the demurrer of the Horn Silver Mining company in federal court session this morning The case is entitled the Austin Mining company against Philo T. Farnsworth, Allan C. Washington and the Horn Silver Mining company. The complaint alleges that the defendants obtained, secreted and otherwise wrongfully used the funds belonging to the plaintiff company. The Horn Silver Mining company filed a demurrer to the complaint on the grounds that it was not a party to the action. In sustaining the demurrer Judge Marshall ruled that the bill of complaint is wanting in equity as to its statements of the part the Horn Silver Mining company had in the transactions alleged in the complaint.

In the case of Jarvis and Conklin vs the Bear River Irrigation and Ogden Waterworks company, the court granted the decree of Wm. Keyting, intervenor, as was prayed for, reconveying to him certain lands in Bear River valley; he renouncing his claim for water supply from the defendant company.

Receiver Sharp's Report. Receiver James Sharp, of the Buckeye Mining company in his report to Judge Hall, sets forth that six unpatented claims were bid in by McCornick & Co. for \$6,000 at a mortgage foreclosure sale, and that the improvements at the mine went to A. E. Hyde, who with J. W. Fox and J. F. Mitchell, relocated the claims, and that at the receiver's sale, \$4,500 was the highest offer for their equity and redemption. The re-ceiver asks for authority to accept or reject this bid, and to bring suit nullify the trustee's sale to the bank and Hyde, which he declares is illegal on account of alleged collusion with Geo. E. Romney, secretary and treasurer of the Buckeye Mining company, by which the obtaining of a higher price was prevented and other creditors were debarred from realizing anything. As an alternative the receiver isks that this year's assessment w be done in such a way as to protect the property from further combinations of the lien holders. The matter will come up for further consideration on Friday, Nov. 15th.

#### Claims \$450 for Whisky.

Paul Friedman of San Francisco, is suing Michael Kopp, receiver for A. W. Brand's liquor business to recover \$450, claimed to be due for fifty cases of whisky, and \$75 damages for unauthorizedf disposal of the property.

#### PARTNERSHIP CASE.

Gus Westphal Sues Pat Ryan, Josiah Barnett and Frank Hines.

Judge Hall was occupied this morning in hearing the case of Gus Westphal vs Pat Ryan, Josiah Barnett and Frank Hines, co-pariners operating the Annie Laurie mine in Piute county. Westphal claims that in 1898 he was hired by the defendants at \$4 a day to construct and repair a mill, and that during the months of October, November and December in that year he worked sixty-five and a haif days, for which there was due to him from the defendants \$262 less \$89.36, advanced to him and for heard leaving a house of him and for board, leaving a balance of \$172.64, which plaintiff claims is still owing to him. Plaintiff as a second cause of action claims that he earned \$278 by working for the defendants in June, July, August and September, 1899, on which he received in cash, board, etc., \$161.75, leaving a balance due him

Again plaintiff claims that the de-fendants owe him a further sum of \$33.50, which he advanced to them at their own request during the months of October, November and December, 1898. This makes a total of \$322.39 that Westphal claims is due him with \$43.75 in-terest. Plaintiff is represented by At-torney G. M. Sullivan, and Defendant Barnett by Pierce, Critchlow and Bar-ette. The other defendants are repre-sented by Ed McGurrin.

sented by Ed McGurrin.

The question at issue just now is whether or no Westphal is a partner in the mining concern, as alleged by Ryan in his cross-complaint. If the court finds that Westphal is a partner, he will thoroughly investigate the partner-ship affairs. If on the contrary he does

not find so the case will be transferred back to Judge Morse's calendar to be tried before a jury.

Ot the Stocks. The afternoon call had several features and several of the stocks made sharp advances over the morning deals on 'change. Others, however, were off color and upon the whole it may be said that the market ruled a little weaker. May Day sold up, closing at \$1.09 per share. Star Consolidated was also a little stronger and was bld for at 28, the last sale being quoted at 38 cents. California was weaker and sold as low as 92 cents, with Daly West accom-

Tetro, however, proved the feature of the call, and jumped to 38 cents per share, an advance of 10 cents of this morning. Ontario was a dealer for the first time in some days, 100 shares going for \$10.50. All the other stocks were either sta-tionary or showed a trifle weaker on the
